

## ST. BERNARD COMMANDERY NO. 29

Constituted at New Masonic Temple, Earlington,  
Last Thursday Night,

UNDER MOST AUSPICIOUS CIRCUMSTANCES.

Many Visiting Knights are Present, Take Part in the Exercises and  
Join in the Toasts.

Thursday night will long be remembered by the Knights Templar of Earlington and many visiting Sir Knights as well. The occasion was the constitution of St. Bernard Commandery, No. 29, known also as the "Baby Commandery" of Kentucky, the charter for which was granted at the last meeting of the Grand Commandery of Kentucky, recently held at Lexington.

The new Masonic Temple, which has just been completed and furnished presented a beautiful scene, an appropriate background for the uniformed Sir Knights, the ladies of the reception committee, with other visitors, the pretty waiters, etc.

The visiting Knights who were present and took part in constituting the new commandery were:

Grand Eminent Commander Henry T. Jefferson, Sir Knights Hal T. Jefferson, William Ryan, Chas. R. Long, DeMalay Commandery, No. 12, Louisville; John G. Orndoff, Bowling Green; George A. Lewis, Frankfort Commandery, No. 4; B. G. Witt, G. M. Smith, Richard Stites, F. H. Frazier, Henderson Commandery, No. 14; Thomas Barbour, M. Devney, Lavalette, No. 15, Evansville, Ind.; Ed L. Wise, H. C. Moore, H. H. Holeman, A. D. Sisk, Sam Langley, J. F. Sory, Sam Bassett, Will Ross, Charles Osborne, L. D. Hockersmith, J. L. Hill, C. C. Rambo, Frank Nisbet, A. W. Davis, D. M. Woodbridge, W. P. Scott, Richard Overall, Madisonville Commandery, No. 27; J. W. Mitchell and Bryan Hopper, Hopkinsville Commandery.

The following officers for St. Bernard Commandery No. 29, were appointed:

Sir Paul M. Moore, Eminent Commander; James R. Rash, Generalissimo; Geo. C. Atkinson, Captain General; Charles Cowell, Senior Warden; Dan M. Evans, Junior Warden; A. W. Jackson, Prelate; H. C. Bourland, Treasurer; George Mothershead, Recorder; Cal J. Martin, Standard Bearer; Geo. P. Farnsworth, Sword Bearer; Frank B. Arnold, Warder; E. L. Stokes, Captain of the Guards.

The commandery was constituted with fifteen Sir Knights, but ten other candidates have already been elected, and will be

given the degrees as soon as practicable. Most of them were present and took part in the festivities which followed the work.

After the business meeting, the Sir Knights were invited into the banquet hall, where a feast of good things awaited them. The banquet table was in the form of a cross and was beautifully and artistically decorated with lilies from Loch Mary and hothouse ferns. The center piece was formed by a large mirror, around which was a most perfect wreath of ferns, and in the center of which was a tall and handsome vase of lilies. Twelve of Earlington's prettiest maidens served supper in courses to the Knights, their visitors and ladies, in the order as shown below:

**FIRST COURSE.**  
Dressed Tomatoes Devilled Crabs  
Bread and Butter.

**SECOND COURSE.**  
Broiled Chicken Hot Rolls  
Saratoga Chips Cherry Ice

**THIRD COURSE.**  
Ice Cream Cake.

**FOURTH COURSE.**  
Cheese Crackers

**ACCESSORIES:**  
Olives Mixed Pickles Almonds.

Many who participated became eloquent, and toasts, both beautiful and humorous, were given. The Bee would like to reproduce them in full were it possible.

The reception committee was as follows: Mesdames Paul M. Moore, Jennie E. Moore, T. D. Walker, Geo. C. Atkinson, M. B. Boulard, Charles Cowell, E. L. Stokes, E. R. McEuen, Misses Mary Mothershead and Susan Atkinson, Mayor W. F. Burr and wife and Mrs. D. A. Morton, of Madisonville.

Others who were present and helped make the evening the enjoyable one that it was were:

Messrs. Henry L. Browning, Carl Woodfolk, Joe Mothershead, L. D. Huff, N. I. Toombs, Ed Phillips and Will Robinson.

Messdames C. H. McGary, J. E. Kemp, Miss Mary Louise Norwood, David Cowell, Ben L. Rash, Clyde McCarley and David Burr.

**THE WAITERS.**  
Misses Celeste Moore, Annie Moore, Werdna Stokes, Lillie Evans, Edith Root, Lizzie Dean, Sue Burr, Edie Stokes, Laura Norwood, Georgia Wyatt, Agnes Burr and Carrie Atkinson.

those down to read are W. P. Walton, on "Progress of Interior Journalism in the past quarter of a century;" Edgar S. Albright, "The Country Weekly as an Auxiliary in Public Improvements;" J. J. Glenn, Editorials for a Country Newspaper;" Miss Ora V. Leigh, "Woman's Part in Kentucky Newspaper Work." After the reading there will be a discussion of papers.

**Put Them to Sleep.**  
Amanda Boyd, a negro woman of Princeton, Ky., killed her child. She had a large washing to do, and gave her baby and its brother a dose of morphine to make them sleep while she was busy. As a result her baby died. The boy is not out of danger.

### HOW THEY BEGAN.

Origin of Some Old Sayings Still Heard Every Day.

"None shall wear a feather but he who has killed a Turk," was an old Hungarian saying, and the number of feathers in his cap indicated how many Turks the man had killed. Hence the origin of the saying with reference to a feather in one's cap.

It was once customary in France, when a guest had overstayed his welcome, for the host to serve a cold shoulder of mutton instead of a hot roast. This was the origin of the phrase, "To give the cold shoulder."

In one of the battles between the Russians and Tartars a private soldier of the former called out: "Captain, I've caught a Tartar!" "Bring him along then!" answered the officer. "I can't, for he won't let me!" was the response. Upon investigation it was apparent that the captured had the captor by the arm, and would not release him. So "catching a Tartar" is applicable to one who has found an antagonist too powerful for him.

"Deadhead," as denoting one who has free entrance to places of amusement, comes from Pompeii, where the checks for free admission were small ivory death's heads. Specimens of these are in the museum at Naples.

That far from elegant expression "to kick the bucket" is believed to have originated in the time of Queen Elizabeth, when a shoemaker named Hawkins committed suicide by placing a bucket on a table in order to raise himself high enough to reach a rafters above, with a rope about his neck, then kicking away the bucket on which he stood.

### New Inventions in Mirrors.

Mirrors that one can see through are a new invention already coming into use. They are of so-called "platinized glass," being backed with a compound of 95 per cent. silver and 5 per cent. platinum, and, optically speaking, they are exceedingly curious and interesting. Looking into a glass of this kind, one finds first-rate reflection; it is a mirror and nothing more. At the same time a person on the other side can see directly through it. For example, a glass of this sort placed in front of the prescription desk in an apothecary shop perfectly conceals the prescription clerk and his apparatus. Thus the privacy of that department is secured, while on his part the clerk is able to survey the shop and see everybody who comes in just as if the mirror were ordinary glass.

### A Perfect Summer Day.

New Orleans Times-Democrat: Had James Russell Lowell been in New Orleans yesterday he might have had reason to modify his beautiful lines: "What is so rare as a day in June? Then, if ever, comes perfect days—for the hours here from daylight till dark were incomparably delightful throughout the charming old city. A light breeze blew freshly from the south, bringing with it just a touch of the stimulating gulf air, and the people of New Orleans went out in the open with a feeling that must have been shared by visitors to the garden of the Hesperides. How joyously the day passed by in the homes, in the parks and in the pretty suburban resorts! The mountain lover in far away North Carolina, or in Colorado, secure from the depressing heat of the inland cities, was not more

content than those who were so fortunate as to be in New Orleans yesterday. The golden mean of temperature obtained throughout the day, the mercury scarcely ever going above 80 degrees. As evening came on the air grew cooler, and the wondrous colors in the western sky showed beautiful as a pictured Venetian scene. Standing at the intersecting streets and looking toward the dying day one recalled the beautiful lines: This is the land the sunset washes These are the banks of the Yellow sea, Whence it comes and whither it rushes— These are the western mystery! Night after night the purple traffic Strews the landing with opal bales— Merchantmen poise upon horizons. Dip and vanish with fairy sails. It was, indeed, a sunset—a midsummer sunset—on the Mississippi, and a midsummer sunset of a delightful day seen from an old and strangely beautiful city.

### Western Kentucky Development.

(Paducah Register.)

Western Kentucky seems to have attracted the attention of railroad promoters. A line of road is now being built from Cadiz to Gracey; plans are on foot for the extension of the Kentucky Western in Webster county; the mineral development in Crittenden and Livingston counties have attracted the attention of promoters and several lines of road are under consideration, one so ambitious in scope as to contemplate a trunk line railway from St. Louis to Norfolk, Va., by way of Carrsville, Salem, Kuttawa, Cadiz and Clarksville; a corporation has been formed for the purpose of building a railroad from Dawson Springs to Madisonville; a little further up the State the Baxter road is projected to tap the rich mineral deposits in Edmonson and neighboring counties. These are some, probably not all, the enterprises in contemplation, some of which have progressed beyond the promotion stage and are on the road to early materialization.

### Shot Her Daughter.

Hopkinsville, Ky., July 15.—Mrs. J. L. Turley accidentally shot and seriously wounded her adopted daughter, Miss Birdie Tolbert, aged fifteen years, at the Wheeler homestead, near Hopkinsville. Mrs. Turley who is a sister of Congressman Chas. K. Wheeler, is here from Natchez, Miss., with Judge Turley and her daughter to spend the summer.

### WILL OPEN A RICH COUNTRY.

Railroad to be Built From Madisonville to Dawson Springs.

The Western Kentucky Coal and Coke Company, capitalized at \$3,000,000, has been incorporated under the laws of the State of New Jersey. The incorporators are well-known capitalists of New York and Western Kentucky and the company has been incorporated in order to build a new railroad from Madisonville to Dawson Springs; to found a town at Richland and to develop the coal lands along the route.

C. E. Morton, of Madisonville, who is one of the men interested, received a letter on the 10th inst. from Dr. N. M. Fugate, president of the company, who is now in New York, in which the writer says everything is satisfactory. This is the enterprise that Messrs. W. L. Gordon and C. E. Morton have been working on for the past two years. This road, when completed, will mean much to Hopkins county, as it will open a rich coal and timber country.

### JAPANESE OFFICIALS

INSPECT KENTUCKY STOCK.

They Visit the Noted Breeding Farms in the Vicinity of Lexington.

Lexington, Ky., July 15.—Messrs. B. Hirotsawa, J. Yasui, B. Ichijo, representatives of the Agricultural Department of the Japanese Government, and S. Ichii, purchasing agent, are in the city inspecting the breeding interests of Central Kentucky. They will remain for several days and will go to the noted farms in the vicinity of this city. They are looking for trotting stock especially, and have already purchased fifteen head in New York. They will probably make no additional purchases here. This is their first visit to this country, and they expressed themselves with being much pleased except for the intense heat of which they complain.

They say that Lexington and Kentucky are known in Japan among all who take an interest in breeding as the center of the horse world in America. The party will visit the various countries of Europe before returning to Japan. They arrived in Lexington direct from the Pan-American Exposition.

### PRESIDENT BAER'S WARNING

Told Reading Men to Beware of Union Dictation.

NO CONTROVERSY OVER WAGES.

President Baer, of the Reading Railway system recently issued a letter to employees containing some sound wisdom and advice as to union dictation and the troubles resulting to working-men. In part he says:

"There is no controversy over wages. We have never had any trouble to adjust wages with our men. It is a bold attempt to compel us to recognize various labor organizations and be subject to their control and management; in other words we are asked to permit the officers of labor organizations, who may belong to other trades and be ignorant of our business, to determine all questions relating to the management of our railway shops.

"We fully understand what this involves. An occurrence at Harry E. Colliery of the Temple Iron Company, of which I am the President, illustrates the tyranny of labor organizations: A carpenter who was a non-union man was engaged in repairing cars. The Mine Workers' union demanded that this man be discharged because he was a non-union man. The company refused to discharge him. On the 17th of June the miners struck because of this refusal and the colliery is still shut down.

"Under the law of the land every man has a right to work and to determine for himself the conditions under which he will work. We will make no distinctions. So long as a man discharges his duty we will not interfere into his religion, his politics, his nationality or his connection with beneficial or labor organizations. But just as we will not permit the Protestants to say that no Catholics shall be employed, nor the Germans and Irish to say that no Hungarians or Italians shall be employed, so neither will we permit labor organizations to control our business and to select our workmen and compel us to employ only members of their organizations.

"Come what will, come what may, there will be no departure from this rule.

"There must be many among you possessed of sound common sense who have strength of character enough to refuse to be led by the nose by these strangers and mischief makers. I beseech you as a friend to think seriously over this matter. Think of your families, of your homes, of your status and citizenship. If you are in doubt consult some of your good, honest, law-abiding neighbors. But be not deceived as to the outcome. There will be no wavering or shadow of turning on the part of the company.

"To the many who have continued at work the company extends thanks and congratulations and assures them that their services are appreciated and their fidelity will always command the support and protection of the company. We will at all hazards assist you in the defense of your right to work."

## DULIN & McEOD Madisonville, Kentucky

### DOWN IN THE MINES.

Efforts are being made by the U. M. W. to gather a host of their followers at Madisonville next Saturday for the apparent purpose of having a big labor rally, but underneath the surface can be seen a well laid plot to intimidate those miners who have thus far refused to surrender manhood and join the gang. But the agitators have made a grievous mistake if they think they will entice the operators of this county napping. They are well aware of every movement made, and they don't have to send a spy to get such information, for a man under the influence of liquor (as most of their gang are at all times when whiskey can be secured) may naturally be expected to talk too much, so all the information desired can be gathered by buying a few drinks for an agitator.

The man or set of men who would tear down the industries of the county in order to gain office, is not worthy of the suffrage of his fellow-man.

Should the railroad not talked of be built from Dawson to Madisonville, some valuable coal fields would be opened up in the vicinity of Richland.

The caving in of the roof of a tunnel on the O. & N. Railroad last week forced the coal operators of Beaver and other mines north of the tunnel to have coal moved to Nashville, via Nortonville over the I. C. and L. & N.

Business at the mines showed some improvement last week, on account of increased coal orders.

Foreman Hulton, of the Monarch mine who lately took charge there, says that he is well pleased with the condition of the mine, and as he has seen some of the results of union labor he is now determined to have nothing to do with said breeders of discord and disorder.

We are told that a guilty conscience make a coward, so, therefore, it is no wonder the U. M. W.'s of this county are almost afraid of their shadows. Those leaders who have encouraged and participated in brutal treatment of those who would dare to disagree with them on labor issues, should naturally expect to be tortured with nightmares, as well as by the appearance of preservers of peace. With almost murderous intent they have time after time attacked innocent men, when caught outside of this county, and now when they chance to meet those whom they would mistreat, a thrill of horror is sent through their frame and they cry aloud for help.

Lexington now boasts of the organization of a \$5,000,000 Oil Company to develop Kentucky land which has already been leased.

Rumor says that President Mitchell, of the U. M. W., will take part in the meeting to be held at Madisonville next Saturday. While here, an effort on his part to secure facts about the workings of his order in this region, would give him such information as would help him reach a wise decision, and say unto followers: "Cease this attempt to disrupt prosperity, where no rightful grievance exists. But such wisdom will not mark his actions, because he, like the rest of the agitators, live on the donations of labor, and if he could not keep up a turmoil his services would not be needed.

John B. Atkinson, President of the St. Bernard Coal Co., is now away from home enjoying a much needed rest. The fatigue and worry of the last few months has had a telling effect on his health, which a few days' freedom from care is necessary to recuperate.

Some of the miners of the East, after a careful investigation, have come to the conclusion that to ensure themselves living wages, they must guard against over production of coal, another effect of over-crowding the mines with labor.

Foreman J. R. Evans says preparations are now being made to sink a new shaft at the No. 11 mine for the purpose of saving long haulage of coal.

Among those who are showing the bad effects of overwork is Ben W. Robinson, of the St. Bernard Coal Co., but his energy and will power keep him up.

A member of the U. M. W. at Empire seems to be very much agitated because the colored non-union miners of this place see fit, after repeated threats against their life has been made, to carry shot guns or other weapons with them to and from work, and this man wants the law to handle these poor, inoffensive blacks for taking steps to protect their lives. This same fellow says, and that to their own shame, that seventy-eight miners in that place alone now live on the charity of miners of other States.

Grant Dunning, of Barsley, who claims to have been sanctified, is out in another false accusation against the Monarch Coal Co., charging them with introducing into this county a contagious disease. A man who would make such base insinuations should suffer if the law will reach him.

Up in Illinois, at a place called Gillespie, the union miners were compelled on account of their poverty to ask that they be exempt from paying tax on labor. So you can see what the idleness in this county is costing honest labor elsewhere.

The chief previcator has again turned loose by saying that the injury inflicted upon Mr. Penrod at Central City was done by the marshal, another false statement made to pave the way for false swearing, when the case comes up for trial.

Many people complain of heavy taxation on property, and while it is quite burdensome at times, it is not the property tax that grinds down the union miner so much as the tax placed on labor by the U. M. W., which is now being paid by them to support men in idleness. Tax on labor! Just think of it! How cruel it sounds.

Peters, one of the numerous correspondents of the Courier-Journal, is now severely censured by a labor paper of Muhlenberg county about his write up of the outrage committed at Central City on July 4th, when Scott Penrod was held up and brutally beaten.

Eleven coal mine operators of Madison county, Illinois, were arrested recently, charged by the State Mine Inspector with failing to provide air shafts for the escape of the miners, should the principal shaft become inaccessible, as required by law. It is said that this law will be strictly enforced in the future.

Of the 267,542.44 tons coal mined in the United States in 1900, Pennsylvania contributed 136,724,006 of which 57,107,690 tons were anthracite. Illinois produced 25,153,929 tons, West Virginia 21,980,430; Ohio, 19,105,408. The United States more than doubled in 1900 the lead in the coal production of the world, which was wrested from Great Britain in 1899.

### LOCOMOTIVE BLASTS.

Conductor Lew Walts has returned from an extended trip to Colorado and is again on his old run.

On account of a tunnel caving in on the O. & N. division, the Henderson division people are moving the freight over the I. C. from Central City to Earlington. Conductor Wise and engineer W. J. Stanfield are in charge of the Central City train.

It was too bad that Cal Martin was called to go out on his run the night of the Knight Templar banquet, before he got anything to eat. We felt for you Cal, but couldn't reach you.

Conductor Cattie Cole, one of the old L. & N. boys was in the city Sunday shaking hands with friends.

It is rumored that Col. W. F. Sheridan is contemplating taking out himself a fifth rib in the near future.

Engineer Wm. Rowe, who has been on the fast passenger trains for some time is taking a much needed vacation. He will be off about two months and during that time will visit Yellowstone Park.

Harry Pyle is on 91 and 92 during the absence of Wm. Rowe and Engineer Wesley Alsop is filling Mr. Pyle's run on through freight.

Miles Cannon has been taken off the north local and is now flagging double headers both ways.

The pay car will pay the Henderson division Thursday July 18th.

Conductor W. O. Galbreath, who was injured last week by falling into a cinder pit at Nashville is improving.

The mother of Conductor Marvin Padgett is very ill at Ridge Top. Her recovery is extremely doubtful.

J. D. Downey, who was at one time section foreman on the Henderson division, has recently been appropriating several bridles with horses attached to them. One of these horses he sold to Gabe Stokes, of Mortons Gap. He attempted to dispose of a horse he had stolen from Guthrie, to a sale stable in Evansville, but the would-be purchaser became suspicious on account of the low price asked and had Downey arrested. He is now in jail at Madisonville.

The son of L. Vieheone, who is superintending the masonry work on the L. & N. at Henderson, was run over by a street car Sunday at that place, and died Monday morning.

Yard clerk, Deglen McGrath, is quite sick with fever and has been for several days. The attending physician is not yet able to determine if it is typhoid or not. John Herd is working during his illness. James Cronen, an ex-Henderson division operator passed through yes-

terday from Twin Tunnel, where he has been working a few days.

A fishing party composed of J. T. Coenen and sons, Theodore and Eugene, have gone to Ramsey, on Green River for a week's fishing.

All the railroad boys who can possibly do so should attend the lecture of Prof. Rufus Cornelius at the M. E. Church in the bottom, Monday night. It will be on the humorous order and will be good.

## OFFICERS KILLED IN

## FIGHT WITH MINERS

Attempt to Arrest Employee of Excelsior Mines in Bell County Results Fatally.

Middlesboro, Ky., July 14.—In a fight this afternoon at the Excelsior mines, three miles north of this city, Officer Joseph Manning was killed. Officers Turner, Manning and several deputies, armed with a warrant for the arrest of Hiram McCreary, charging him with some minor offense, left this city late this afternoon for Excelsior, where McCreary is employed as a miner. When they arrived at the mines McCreary and his friends opened fire, which was returned by the officers, and when the smoke cleared away Manning was found to be wounded, and died shortly afterward.

McCreary escaped, but a posse which left the city tonight in search of him returned with the prisoner at 10 o'clock, having found him in the mountains wounded. Upon examination the physicians found he had received four slight wounds. No further trouble is anticipated.

## Might Emigrate.

"An exchange apply remarks: There is no reasonable excuse for any man to live in a town if he doesn't like it. If you have no word of commendation to say of your town, emigrate. You won't stop the town clock by going away. The church bell will have the same musical ring, the dogs will play just as briskly, fish in the river will bite as well, and the pure air, bright sunshine and sparkling water will have the same health-giving properties. If you have been thoroughly soiled and disgruntled and a loss to yourself, go down to the river, tie a rope around your neck with a great big rock on the other end and get off the earth; the little birds will warble as your body shoots through space. "There goes nothing, going nowhere; would there were others going enroute to the same place."

## He Was Handicapped.

(Atlanta Constitution.)

"At last," said the Judge to the colored prisoner, "justice has overtaken you!"

"Yes, uh," was the reply, "but if it hadn't been for rheumatism he never would get out run me."

**HAIR VIGOR**

Does this illustrate your experience? And are you worried for fear you are soon to be bald?

Then cease worrying, for help is at hand. You need something that will put new life into the hair bulbs.

You need a hair food, such as **HAIR VIGOR**.

It brings health to the hair, and the falling ceases. It always restores color to gray hair. You need not look at thirty as if you were fifty, for your gray hair may have again all the rich, color of youth.

50¢ a bottle. All druggists.

**Write the Doctor.**

If you do not obtain all the benefits you expect from the use of the Vigor, write the Doctor at once.

## NOT OF MUCH BENEFIT

The Rains That Have Fallen Have Not Broken the Drought to Any Extent.

## MERELY FRESHENED THINGS UP A BIT.

Topeka, Kas., July 17.—While rain has fallen during the past 24 hours in various parts of Kansas, the drought is not yet broken, and little benefit has been experienced by the crops. The rains have been small, local affairs, and their only effect has been to cool the atmosphere and freshen vegetation to a certain extent.

This has been a moderately cool day. The refreshing breeze from the south made the weather seem bearable than any during the past month. Two places in the state report a temperature of 107, but the average has been 99.

Reports of blighted crops continue to come in. A hopeful tone pervades most of the reports, however, and the determination is generally expressed to make the best of the situation. In the eastern division of the state crops are suffering more than in any other. The damaged portion of the central part is less severe while in the western part the conditions are the most favorable.

The corn is not the only thing at stake. To obtain water for stock and for fire protection is a much-studied problem, and one that will not be solved until the coming of rain. Previous estimates of half a crop of corn this year still hold good in case more rain comes within the present week.

Late apples have been hurt but little, while peaches are damaged more and small fruits failed almost entirely. Apples and peaches are falling from the trees or account of lack of moisture.

## PERVARIANT PRAYERS FOR RAIN.

A Monster Prayer Meeting in One of the Smaller Pacific States.

Omaha, Neb., July 17.—Rev. F. Merton Smith, the noted English evangelist who is conducting revival services in the cities of the west, Tuesday night led a convocation of several thousand people in prayers for a bounteous rain, which will prevent a complete annihilation in the corn belt. An immense tent was erected at Twenty-first and Spencer streets in a small park, located in the heart of the residence district, and in this were seated hundreds of members of the congregations of the city. About the tent, the sidewalks of which were raised, was massed a crowd of citizens of all classes and all religious faiths, participating in the exercises and lifting their voices in unison in repeating the solemn, powerful invocation spoken by the eminent divine. So impressive were the services and so deeply supplicating were the prayers that a general expression of belief in the efficacy of the invocation would be answered with a downpour in time to save the crops and prevent disaster.

## Rushes Stock to Market.

Kansas City, Mo., July 17.—Because of the drought in the southwest, which is causing farmers to rush their stock to market to save it, the record receipts here were again made Tuesday when 31,500 head of hogs were received at the local stock yards. The hogs received from the southwest this week have been of common grade, averaging 15 pounds lighter than the general run.

## FROM THE DROUGHT REGION.

Refreshing Showers.

Drought was broken in Sedgewick county, Kas.

A heavy rain broke the drought at Hillsboro, Ill.

Refreshing showers have fallen in Pike county, Mo.

A soaking rain fell at Bloomington, Ill., and vicinity.

Good showers have fallen south-eastern Arkansas.

Heavy rains fell between Ottawa and Emporia, Kas.

Van Buren, Ark., was visited by the heaviest rain since May.

Rain came in time to save the corn in the vicinity of Franklin, Ill.

Rain saved corn, watermelons and sweet potatoes in the vicinity of Beardstown, Ill.

There has been a downpour in the Grand River valley, in the Indian territory, and corn saved.

Dr. W. A. Hatch, pastor of St. Jude's Episcopal church, Macon, Mo., has four prayer services for rain daily during the week, and if the rains come he will turn the service into one of praise.

Mrs. Sarah W. Tullar, aged 84, at St. Joseph, Mo., died.

At Baldwin, Miss., several hundred people assembled at a special meeting to pray for rain. A delegation called on Gov. Longino of Mississippi and asked that he set aside one day for prayer all over the state.

Fire, from a threshing machine, burned over a large scope of country near Larned, Kas. The fire farm residence of Henry Hanhart and Mrs. Julius Rhiner were destroyed with their contents. Stock perished, and thousands of tons of hay were burned.

Rev. William F. Hoskens, of Flora, Ill., felt unconscious in his pulpit.

William H. Johnson, aged 60, a prominent farmer near Carlyle, Ill., was stricken in the field, and died while being taken to his house.

A weather and crop prophet at Abilene, Kan., predicted a failure in wheat, and sold 50 acres at \$1.25 an acre.

The man who bought it has harvested 1,441 bushels.

It is probable that the great American bottom fields that have supplied St. Louis and Chicago markets for many years have suffered to the extent of a loss of half the crop, and rain in a few days alone can save what is left.

At Janesville, Wis., a special mass was celebrated in St. Mary's Catholic church for the express purpose of praying for rain. There was a large attendance. Not only is the vegetation dried up, but the leaves on the trees are turning brown.

The extreme heat has created another upward movement in the price of broom corn, and brush sold at Arcola, Ill., for \$109 a ton. Contracts are now being made on the 1901 crop at better than \$10 a ton.

Mrs. Margaret C. Mallett, wife of a Jewish business man of Kansas City, died.

## THE ARMY OF THE MIKADO.

The First Military Attache of the Japanese Legation Arrives at Washington.

Washington, July 17.—Lieut.-Col. Wantanabe, the first representative of the Japanese army to be accredited to Washington as military attache, has arrived here and reported to the Japanese legation.

"The present military system of Japan is thoroughly modern," said he, "and is similar to the best European systems, those of Germany being followed to a considerable extent. The peace footing is from 70,000 to 80,000 men, with a war footing about double that number, and reserves which can be called upon at an almost unlimited number. The army is divided into 13 divisions, with a general in command of each.

"The Japanese troops are armed and equipped with the most modern devices of warfare, the latest rapid-firing inventions being added about three years ago. Our army is distinctly a Japanese weapon, made in our own arsenals, and combining the best features of the other most effective weapons. All the heavy guns as well as rifles, are now being manufactured in Japanese arsenals. Our soldiers are well drilled, and experienced in the most modern methods of modern warfare. We hear much of the American soldiers in the east and always favorable reports as to their splendid appearance, their discipline and fighting ability. I am glad to say, too, that there is the most friendly feeling between the Japanese and American soldiers."

## DYNAMITED A BANK.

A Gang of Robbers Attempt to Force the Strong Box of an Ohio Bank.

Columbus, O., July 17.—A gang of six or seven robbers wrecked the Wersler & Ashbrook bank at Alexandria, in Licking county, about 1 a. m. The strong box resisted their efforts, and they overlooked a package of \$1,500 in the outer vault, which they blew almost to pieces.

Tools were stolen from the Toledo & Ohio Central, with which the front door of the bank was opened, after which four charges of dynamite were exploded to open the vault. The noise aroused Cashier C. B. Buxton and others, who reside near, and they hastened to the scene. Although the citizens surrounded the building, the robbers remained in the bank for an hour, making repeated attempts to force the strong box, meanwhile keeping up an exchange of shots with the villagers. Finally the bandits fled in two rigs, which had been previously stolen. Sheriff Anderson and a posse are in pursuit.

There was only \$18,000 in the strong box, the package of \$1,500 having been received too late to be placed there last evening. The loss is covered by insurance.

## Disguised as a Woman.

Little Rock, Ark., July 17.—A Texas detective has arrested, in the King's river neighborhood, in Mississippi, a supposed young woman who had been teaching a private school there for some time.

It turned out that the school teacher was a man in disguise, and that his name is Sears. He is alleged to be wanted in Texas on the charge of committing a murder seven years ago. When arrested the young man had in his possession \$3,000 in cash, carried in a belt.

## Horse Thieves Reported Home.

Helen, Mont., July 17.—A posse organized at Big Sandy to capture three alleged horse thieves, "Buckley Bill," Fred Comme and Pete Waller, has received word that the three men were hanged by another posse Saturday on the Missouri river near Judith.

## Will Forgive the American Turf.

New York, July 17.—Richard Croker has notified his English agent that he has his American race horses and brood mares shipped to Waukegan, and it is stated will, in the future, confine his racing operations to England, forsaking entirely the American turf.

## Twenty-Six Days From Manila.

San Francisco, July 17.—The transport Indiana arrived here, Tuesday, 26 days from Manila. She brought 10 passengers and 1,000 soldiers of the Forty-second regiment and the Third artillery. One death occurred during the voyage.

## Missarian Drowned in Alaska.

Seattle, Wash., July 17.—Advice from Dawson, June 28, state that Orin D. Merryman, native of Maryville, Mo., was accidentally drowned in Eagle, July 2, by the capsizing of his canoe.

## ARE IN SATISFIED MOOD.

The Amalgamated Association Officials Are Satisfied With Their Work.

## HAVE MADE GOOD THEIR PROMISES.

The Optimistic Announcement Made That the Wellsville Hoisting Mill Must Be Run as a Non-Union Mill or Not at All—Based on an Agreement.

Pittsburgh, Pa., July 17.—The second strike day closed with the Amalgamated officials in a satisfied mood and claiming to have made good every promise as to results. On the other hand, the manufacturers will not say a word concerning the strike and refuse to be quoted in any way. Insisted efforts to secure statements from President Corey, of the American Sheet Steel Co., and General Manager I. W. Jenks, of the Hoop company, have been met with the response that there was no change and nothing to be given out.

## No Talk of Mediation.

The Amalgamated people say that nothing has been said to them of any plan for mediation or arbitration, and that they will continue to carry out their programme as originally announced.

The closing down of the Clark mill and of the Monessen sheet mill are looked upon as telling victories, making an almost complete tie-up of the steel industry in this district. But one sheet mill, that at Monessen, and one iron mill, that at Duncansville, remain at work. The fact that the National Trade Union (non-union) received a substantial advance in wages, Monday, has caused discontent among the union men employed by the National Trade Union. The Co. men, who have been at the Republic mill on the south side. The men here think they are entitled to a similar increase. To consider the matter, meetings were held on the south side, and it is said, a demand will be made.

## An Important Telegram.

The following telegram was received Tuesday night:

"Weils, July 15.—The Wellsville rolling mill will be run, and it will run on non-union men. It will be run as it can not be run non-union it never will be run at all."

This statement was made by Percival M. Smith, of Pittsburgh, district manager for the American Sheet Steel Co. He was here and made an address to the striking mill men. He said that they had no grievance; that they had been well cared for in the past and would be in the future. The announcement that the mill will be run on non-union men has given rise to little speculation and uneasiness among the citizens. Many of the strikers, expecting prolonged idleness, have left the city for mining and fishing camps. No new men have been brought in, and how Manager Smith expects to start is a matter for conjecture.

## Developments Anxiously Awaited.

The foregoing is the first indication as yet given by the manufacturers that they were other than passive participants in the big strike. What the result may be of an attempt to operate the Wellsville plant none of the local Amalgamated people will predict. All they say is: "It can not be accomplished."

Wellsville is looked upon by both sides as an important point, and developments are anxiously awaited by all.

## Bound By an Agreement.

The position of the Tin Workers' Protective association in the strike was settled by the following telegram to the Leader:

"Elwood, Ind., July 16.—Our association is bound by an agreement with the company to work providing they live up to their contract. If the company introduce black plate worked by non-union men our men will be called out. The Amalgamated people will have our full support if necessary."

## INTERVIEW WITH SHAFFER.

He is in a Cheerful Mood—Tribute to the Coal Miner.

Pittsburgh, Pa., July 17.—President Shaffer was cheerful when seen, and said he was entirely satisfied with the situation. He had just been in communication with George Powell, president of the American Tin Plate Workers' Protective and International Association of America, at Elwood City, who announced that his organization was in hearty sympathy with the Amalgamated association strikers.

## Strike Benefits.

President T. J. Shaffer announced that strike benefits will go to the men from the time of the actual inauguration of this strike. The association has a substantial fund, he says, and the men coming at work in plants outside of the big steel combine will pay liberally to support the strike.

## "Best Union Man in the World."

When President Shaffer made his statement about President Mitchell's statement, "President Shaffer said: 'I shall not ask the miners to go on such a strike. God help the poor coal miner. He is the best union man in the world, and the poorest paid of his kind. He has troubles enough of his own and we have no desire to involve him. But while I shall not invite him to solicit a sympathy strike, the Amalgamated association stands ready at any time to fight an ally with the United States Workers or any other kind of a strike.'"

## Death Claims Hon. S. B. Vance.

Henderson, Ky., July 15.—The Hon. S. B. Vance, for many years a prominent lawyer and politician, died at his home here last night.

He had been confined to his bed for several months with kidney trouble, and was operated upon some months ago. A few days ago he began growing rapidly worse and died last night.

On account of his bad health he had retired from his law practice. He was an opponent of Dr. Clardy in 1896 in the race for Congress, being defeated in the district by Dr. Clardy and in this county by W. P. McClain of this place. Since his defeat for Congress he had retired from politics.

## Mayor Harrison Tired of His Job.

(Chicago Tribune.)

To be mayor of a city which has an invidious revenue is an empty honor, according to Mayor Harrison. He admits he is "tired of his job"—tired of trying to make ends meet, weary of going to the municipal cupboard and finding it bare. Some man, some day, the Mayor believes, will come along and get the job when there is money with which to do things, and Mr. Harrison thinks this man should be the happiest man on earth. The Mayor has been looking for such a day for two terms, and has started out on a third term to watch for it.

"It's getting to a point where I am thinking of quitting," he said, "I will not say thinking seriously, but just thinking."

## DR. HARTMAN'S ADVICE

Is Sought by Female Sufferers From Ocean to Ocean.

Mrs. F. W. Goulder, 1305 Fourth avenue, Rock Island, Illinois.

"I was afflicted for five or six years with catarrhal difficulties and was growing worse all the time. I began taking your Pains-Expeller with a marked improvement from the first. Independent of curing that, the Pains-Expeller has greatly improved my general health."

"I owe my present good health to it."

All over the country there are women who have been invalids for many years, suffering with female derangements.

What a boon to such women is Dr. Hartman's free advice!

So famous has his skill made him that hardly a hamlet or town in the country but knows his name. He cures tens of thousands, and he offers to every woman who will write to him her symptoms and a history of her trouble, free advice and treatment.

The medicines he prescribes can be obtained at any drug store, and there is within the reach of any woman. He describes minutely and carefully just what she shall do and get to make a healthy, robust woman of herself.

### COUNTY CLERK.

GILLAND—We are authorized to announce C. H. Gilland, of Glasgow, a candidate for County Clerk, subject to the action of the Republican party.

MURPHY—We are authorized to announce C. H. Murphy, of Madisonville, a candidate for County Clerk, subject to the action of the voters of Hopkins County at the November election.

### JAILER.

HARRIS—We are authorized to announce J. F. Harris a candidate for Jailer, subject to the action of the Republican party.

### The Steel Strike.

The temerity displayed by President Shaffer in ordering a general strike of steel and tin workers in the face of the concessions offered by the manufacturers may be justified by the conditions as he sees them, but it does not have that appearance to others. He has staked the existence of his organization upon a demand for the exclusive employment of union labor when the union scale of wages and hours and permission to organize the non-union workmen had been granted. The Amalgamated Association has not a single grievance to allege, either as to treatment, hours of labor or wages, but it plants itself squarely on the demand that a man must be one of its members before he can receive employment from the steel syndicate. Mr. Shaffer may be right in his contention that it is a life or death struggle for his organization anyhow and that the fight should be made at once, but he has certainly burned his bridges behind him. There is no chance to continue the organizing of the steel workers at the Carnegie and other non-union plants, and the fight must be fought with such members and such resources as the association now possesses.

On the face of it, the two forces are not equally matched. The Carnegie plants are the largest and best equipped of all the great works, and if Mr. Frick could keep them open and running at the time of the Homestead strike when the Amalgamated Association was so strong it ought to be possible to keep up production now. With the various Carnegie mills and furnaces as a nucleus and the number of other non-union plants owned by the United States Steel Corporation, it can make shift for a long time even if all the union works must be closed. To win the strike the shut-down of production would have to be complete, or nearly so, and this is not conceivable.

Another consideration that counts against the strike is that the Amalgamated Association must play a waiting game while the manufacturers can carry on an offensive campaign. They can make offers to the strikers or can hire men at other plants and in this way weaken the ranks of the Amalgamated Association. Provision has probably already been made for this to some extent. The shutting down of so many plants in Great Britain and in Germany ought to release a large number of skilled workers who may accept the higher wages and permanent employment offered in America. The contract labor law would prevent any organized movement of this sort, but men could come over without being engaged in numbers large enough to count in the long run.

The strike, it must be admitted, is a serious one from every point of view. It is begun at a time of the greatest business activity when there will be heavy

losses to the steel syndicate through the inability to fill contracts. It is estimated that this will run up to \$50,000 a day, a sum large enough to count even with the gigantic steel trust. It will affect all the allied industries, the mines and the transportation lines, not to mention trade in all departments which will be affected by the reduced earning power of such large numbers of men. Our supremacy in iron and steel will certainly be endangered, for idleness in America will give the foreigners opportunity to seize again upon the business they have lost. These considerations may weaken the manufacturers in their fight or may cause their surrender, though it is improbable that they have entered on this fight without counting the cost. However the suspension of work means even more for the strikers who will soon exhaust their savings and who can not long be maintained upon their savings and their strike fund. It will be remembered how soon the machinists found themselves out of money, and in the nature of things the steel workers can do no better.—Courier-Journal.

## THE RAMBLER.

I noticed a rambling, disconnected, labored article in last week's Fairview Review by the Rambler. I am well and personally acquainted with Mrs. Rambler; in fact we used to attend the same country school.

I remember as if it was but yesterday when she was a little two-headed girl standing in front of the teachers' well worn desk, her bare feet looking somewhat like the back of a franty toad while she would make frantic but futile efforts to spell baccuit and in an absent-minded way screw her off big toe in a knot hole in the floor.

In the vacations Miss Rambler would vibrate between the berry patch and the tobacco patch. How well I remember the many evenings I have assisted her to gather the green tobacco worm from the plants, she clad in a simple cotton dress made in one piece and I in a pair of cottons with one bed-tick "gallus." When we would worm and sucker three rows we would sit down in a shady fence corner and rest and she would make goo-goo eyes at me.

Then in the fall when the tobacco was sold she had enough money to buy a pair of store-shoes and a pair of brass earrings. Clad in these she certainly cut a swell figure and had three sweethearts at one time. She finally married one of those boys, a good easy hard working say-nothing kind of a fellow who had always made a living by slapping old Beck on the side with a plov line. This is the same poor hen-pecked man that Mrs. Rambler says is of no account and won't make her a decent support, after he has given her the best years of his life and toiled early and late that she might have the good things of life. She now raises a howl and enters a vigorous kick if he has to patch his pants that he has no doubt worn out sliding around covering barns to earn an extra dollar or two for her to spend. She also objects to nursing her own children. Who ever heard of such a thing? Whose place is it to take care of the kids if not the woman's? It is a time-honored custom and was instituted by Mother Eve when she first sang lullabies to little Cain and rose silently in the middle of the night to administer paregoric when he had eaten too many green apples.

Mrs. Rambler, you are entirely off your nest and out of the box. The best thing you can do is to attend strictly to your household duties and let your poor husband chew tobacco in peace and sleep for a while if he wants to, for when he's gone you will never get another.

TIMMIE.

## A MAN OF THE HOUR.

ASQUITH NOW THE FOREMOST ENGLISH LIBERAL.

He Differs With Other Leaders on War Question and May Form a New Party.—With little exception, Mr. Asquith has risen without influence.

England's "man of the hour" is the Right Hon. Herbert Henry Asquith, M. P. His present prominence is due to the stand he has taken in regard to the future attitude of Great Britain toward the former South African republics. Mr. Asquith is one of the leaders of the Liberal party and as such a member of "the opposition," the Conservatives having been in power in England for six years.

In his recently expressed views on the South African question Mr. Asquith is much at variance with other leaders of his sadly disunited party. His divergence is hailed with glee by the Conservatives as a "split" in the Liberals. It is possible—indeed quite probable—that from the dissensions in the party will arise a new one, with Mr. Asquith at its head, for he has a very large following of admirers. Should his party be successful at the polls Mr. Asquith will be a candidate for the highest honors, and the premiership of the world's greatest empire will be fairly within his grasp.

While that branch of the Liberal party of Great Britain that follows Sir Henry Campbell-Bannerman and Mr. John Morley is pro-Rose in sympathy Mr. Asquith's views are strongly imperialistic. His recent speech stated that, although at the beginning of the war he favored the independence of the two republics, he is now a convert to the wisdom of annexation. He holds that the ultimate goal of South Africa, the attainment of which will be to the benefit of both Great Britain and of the former republics, is free, confederated dominion on the lines of the Dominion of Canada and the common-

wealth of Australia. In the meantime it is, according to Mr. Asquith, the duty of Britons to uphold the war, or, at any rate, not to condemn it. The Hon. Mr. Asquith is in the prime of life. He was born in Yorkshire on Sept. 12, 1852. His education was thorough, broad and of a high scope, as is evidenced by the winning of a scholarship in old Balliol college, Oxford. His academic career ended, Mr. Asquith read law and was admitted to the bar. In 1880 Mr. Asquith "took silk"—that is, he became a Queen's counsel. In 1886 Mr. Asquith came to the House of Commons as a member of parliament. His rise during the comparatively short time since has been one of the wonders of English politics.

When in 1892 Mr. Gladstone made the hard working and brilliant member of parliament his secretary for the home department, the appointment aroused some surprise, although even then astute observers predicted a great future for Mr. Asquith. His success in the office amply justified the Grand Old Man, and when the Liberal party went out of power in 1895 Mr. Asquith was recognized as one of its leaders and as Gladstone's possible successor. He has acted with his party since, although sometimes disagreeing with others of its chieftains.

Mr. Asquith's career furnishes considerable material for denial of the often repeated charge that influence is an essential of success in English politics. He has worked his way up solely by his merits. His ability as a lawyer is great and unquestioned, and he ranks among England's best debaters and speakers. He is a man of courage and conviction, of virile good sense and cleverness. Mr. Asquith's clear cut, clean shaven face, with firm mouth and high square brow, seems to give evidence of innate power and promise of future greatness. He does not aim at brilliancy, but succeeds instinctively in making an impression on his auditor or spectator.

The Best Remedy For Stomach and Bowel Troubles.

"I have been in the drug business for twenty years and have sold most all of the proprietary medicines of any note. Among the entire list I have never found anything to equal Chamberlain's Colic, Cholera and Diarrhoea Remedy for all stomach and bowel troubles," says O. W. Wakefield, of Columbus, Ga. "This remedy cured two severe cases of cholera morbus in my family and I have recommended and sold hundreds of bottles of it to my customers to their entire satisfaction. It affords a quick and sure cure in a pleasant form." For sale by St. Bernard Drug Store, Earlington, Geo. King, St. Charles; Ben T. Robinson, Mortons Gap.

### The Two Periods.

(Puck.)

"After all," said the Old Codger, in his usual dry way, "I kinder think that, instead of there bein' seven ages of man, as Shakespeare contended, there are only two—before he is married and afterward. During the first period he puts in the most of his time trying to make the lady think he is a devil of a feller, and during the second he spends still more of it in endeavorin' to convince her that he ain't."

### Two Negroes Shot During a Barbecue.

Henderson, Ky., July 15.—Two negroes were shot, one of them fatally, in a general fight at a negro barbecue, four miles north of here, about midnight Saturday. Tom Marshall received a bullet in his brain, and will die. Will Fellows was shot in the back. Sell Bell and Sam Fellows are in jail, charged with the shooting. The trouble started over a dusky damsel.

### Found Their Horses.

N. L. Chrisman and Jake J. Mayes, of Hazel, Ky., were in the city Sunday en route home from Madisonville where they found in a lively stable two horses which had been stolen from them several weeks ago. Chief of Police Matthews located the animals for the men. The horses had been left at the stable by a stranger who after making several attempts to sell or trade them left Madisonville two or three days ago.—Hopkinsville New Era.

## STARVATION IN RUSSIA

Drought in the Eastern Provinces of the Empire Causes Failure of Crops.

### CROPS BEYOND HOPE OF RECOVERY.

There Has Been Little Rain, a High Temperature, and the Fields are Barren and Bare—Recurrence the Awful Scenes of Several Years Ago Probable.

St. Petersburg, July 16.—Large parts of the empire are again threatened with famine. The official report which has just been published was dated June 21. Since then not a drop of rain has fallen in the eastern provinces, and it is believed the crops are now largely beyond hope in many districts. The provinces of Samara and Saratoff will probably witness a recurrence of the death of two or three years ago, and a death in these provinces is particularly dreaded on account of the ignorance and helplessness of the Bashkirs and Tartars who make up a considerable part of the population there. The news paper Volgar states that from all sides reports are coming in that both winter and summer grain are beyond hope of salvation even should there be ample rains and no hay at all will be harvested. Since early June the temperature has been about 101, and no rain has fallen. The fields are burned and brown, and the feeding of cattle and horses has already begun to be a problem. The same kind of reports are coming from the province of Kazan. The Volga provinces have already been visited by two severe famines during the last ten years and the population has lost whatever power it had to withstand famine.

### UNITED STATES NOT AGREED.

Uncle Sam Does Not Coincide With Everything the Powers Want in China.

New York, July 16.—A dispatch from Washington to the Herald says: The United States has not agreed to action looking to the advisability of the foreign ministers in Peking demanding that a special punishment be administered in those districts in which foreigners were outraged. This government is anxious that the powers should retire from China as promptly as possible.

While China has in the matter of examinations, turned a difficulty, it is pointed out that the other terms demanded are exceedingly rigorous, and it will be difficult for the imperial government to comply with them, and at the same time preserve its prestige at home.

### AN IMPRESSIVE FUNCTION.

Installation of the Duke of Connaught as Grand Master of E. G. L. of England.

New York, July 16.—On Wednesday, says the Tribune's London correspondent an impressive masonic function will take place in England. This will be the installation of the Duke of Connaught as grand master of the United grand lodge of England in succession to the king, who presided over the craft for 26 years. The ceremony will be the same as when the prince of Wales was placed on the throne of the grand lodge of John Fawcett, of the province of Durham, and it will be conducted at Albert hall, in the presence of 10,000 masons who are either masters or wardens of a lodge, or members of a past or present grand lodge.

### VICTIMS OF LIGHTNING.

Three Persons Killed and Two Injured as the Result of a Flash of Lightning.

Newcomerstown, O., July 16.—During a heavy storm, Monday afternoon, lightning struck a straw stack on the farm of Mrs. C. McMillan, about one mile north of town, instantly killing Mrs. James Huff, her daughter, Mrs. Thornton, and the latter's four-year-old daughter. Mrs. Huff's daughter, Myrtle, aged 16, and another child of Mrs. Thornton, aged about seven, were seriously injured. The party had taken shelter under the shed. The shed was knocked down by lightning and the entire party was buried under the chaff and straw for two hours or more, until some parties were attracted by calls for help by those who escaped death.

### Terrible Weather in Berlin.

Berlin, July 15.—The weather, Monday, was the hottest known in Berlin for several years. A number of persons died of sunstroke.

Violent thunderstorms are reported in various sections of the country and there was an enormous cloudburst at Potsdam. Two men and thirty cattle were killed in the mountains by lightning near Neiburg.

At Herrenberg and Wurttemberg the crops have been half ruined by hail, and they have been badly damaged in other sections.

## STEEL WORKERS' STRIKE.

The Amalgamated Association Has Not Played All Its Trump Cards Yet, Holding Some Back for Future Use.

Pittsburgh, Pa., July 16.—Reports received from all sources connected with the great strike of the steel workers indicate that the members of the Amalgamated association have matters well in hand and that the strike order was generally obeyed. Telegrams from various points where the mills of the American Tin Plate Co., the American Steel Hoop and the American Sheet Steel Co. are located, tell of the shutting down of these plants in large numbers. In many cases the plants had been shut down by the first strike order, which affected the steel sheet and the steel hoop companies only. The last order brought out all of the union plants of the American Tin Plate Co., with the single exception of the new mill in Monessen, which is still running. At the Amalgamated association headquarters it is stated that the figures given out, Saturday night, regarding the number of men who would be actually idle in the mills of the three companies have been proved correct. This number was placed at 74,000.

Where the Idle Men Are.

Of the 74,000 men idle, 2,500 are in Pittsburgh, 800 in Allegheny and 1,500 in McKeesport. President Shaffer has it in his power to close many more Pittsburgh mills, but it is not thought that he will do anything of a radical nature until he is compelled to.

The American Steel Hoop Co.'s supposedly non-union mill, known as the Painter mill, in West Carson street, was closed in all its branches. The six-up at this mill was said to have been a surprise to the mill owners and officials in charge of it. The plant known as the Lindsay and McCutcheon mill, in Allegheny, was shut down completely in the puddling and bar mills. All the skilled workmen refused to enter the mill, and the company did not even operate the furnaces. The finishing department of the mill was working during the day, as the men are not in the union, but it was claimed by the workers that the employees in that department would not go to work Tuesday morning.

### A Non-Union Mill.

The American Steel Hoop Co.'s mill at Monessen was not closed Monday, as it has been non-union since it was built two years ago, and the company says the men there will remain loyal. The amalgamated people will not discuss the situation in that mill at present.

While all the mills of the United States Steel corporation are included in the experience of the companies are the first attacked. What the next move will be the workers do not say. It is announced that the circular letter which was sent to be sent out, calling on the men in the mills of the Federal Steel Co., the National Tube Co. and the National Tube Co. to come out, will not be issued at present.

### An Interesting Report.

The latest interesting report to the Amalgamated association, Monday, was the dispatch from New York which said that a conference of the experienced of the companies that met the Amalgamated association in this city last week. It was stated that the question of again expanding the olive branch to the strikers or of taking up the fight and crushing the association would be determined.

### SHAFER'S STRIKE ORDER.

Indications Point to Its Being Generally Obeyed by Amalgamated Men.

Pittsburgh, July 15.—From present indications it looks probable that President Shaffer's strike order, issued Saturday night to the Amalgamated association members in the employ of the American Steel Hoop Co. and the American Sheet Steel Co., and the American Tin Plate Co., will be obeyed and the great strike against the Amalgamated association and the steel companies will be on in earnest. In the union mills of the three companies against which a strike has been declared, it was predicted that not a wheel would turn Monday. An effort will be made, also, to close the non-union mills of the companies and to cripple the rest. The Amalgamated association people are very sanguine of success. "The strike was not of our own selection," said President Shaffer. "It was forced upon us. We were not contending for wages, but for principle and for self-preservation. The tin and sheet people will not be able to turn a single wheel. We have our forces thoroughly equipped and there will be some surprises in store."

### THE FALL OF THE BASTILLE.

The National Fete Day Generally Celebrated Throughout France.

Paris, July 15.—Telegrams from all parts of France show that the national fete day, the anniversary of the fall of the Bastille, was celebrated everywhere throughout the country with much enthusiasm and without disorder. There were reviews at all military and naval stations, followed by illuminations, fireworks and balls in the evening.

### Still Purchasing Bonds.

Washington, July 16.—Secretary Gage, on Monday, purchased \$11,000,000 of three per cent. national bonds, at 100 and 1/2.

## FINES AND JAIL FOR STRIKERS.

Two Men and Six Girls Punished by New Jersey Judge for Interfering With Non-Union Employees.

Pateron, N. J., July 12.—Because they ignored the order of the court to leave non-union workers alone, two men were today sentenced to fine and imprisonment and six girls to fines.

Clemens Herold, who has been recognized as the leader of the strike, was fined \$50 and sentenced to sixty days in the county jail. Emanuel Bossard was fined \$25 and sentenced to thirty days in the county jail.

Clara Tileweil was fined \$50, and Tillie Watson, Clara Ludwig, Florence Judge, Lizzie Engler and Martha Wardlow were each fined \$25.

### STRIKE CALLED OFF.

Terms of Vice-President Smink Accepted and Men Return to Work.

Reading, Pa., July 13.—At 2:30 p. m. today the striking iron workers of the Reading Iron Company decided to accept the terms of Vice-President Smink. The strike was called off and the men will go back as soon as the company is ready for them.

When the strike was started the company had many contracts on hand. These either had to be given to other firms or rejected altogether. In this way all the old contracts were disposed of. There is little work to be done now until new orders are received.

The strike lasted nine weeks.

The Webster county circuit court has a large number of cases on its docket, but so much time is being given the important trials that very few of them will be disposed of the present term.

The people of Webster regret very much that J. D. Hardwick was connected in starting the disastrous fire at Dixon a few weeks ago. His father, who died last spring, was one of the most highly respected citizens of the county. He was an unusually successful merchant and left his son one of the largest stores in Dixon for him to follow in his footsteps.

The Dekoven boys were so enthusiastic over their beating the local base ball team last year that they decided to play those of the large cities and accordingly invited the Nashville team to two match games. The Dekoven boys were so badly defeated that they will say nothing about that they are "down on their luck."

The people of Caseyville have, in the last ten years, repeatedly voted wisely out of that place, but on each occasion it was soon voted back. The recent election in favor of the saloon shows that the people have at last decided to let it remain.

### Wit and Humor.

Do you see that gawky man with the mole on his nose, said one of the men standing on the corner of Main street one day last week. "Ten years ago I started that boy in business with fifty cents worth of bananas and he bought a basket on credit. How much do you suppose he is worth today?" Some said \$5,000 and another said \$15,000. "No," said the speaker, "it is not worth a copper cent and still owes for the basket."

A box of Star tobacco was accidentally dropped out of a third story window in St. Louis on the head of Mike Maroon, killing him instantly. When the news was reached his wife, she said, "I have been after Mike for fifteen years to quit chewing. I told him tobacco would be the death of him, but he did not believe me."

**Sabbath Decoration.**  
The distinguishing marks between the sabbath day and week days are rapidly passing away. The good old fashioned Sunday is a thing of the past. Instead of attending Sunday School and church in the morning and spending the evening in quiet walks and conversation, or reading some good book, we have a howling yelling mob playing baseball or attending some Sunday matinee.

People will go to see a ball game and stand for hours in the blazing sun and yell themselves hoarse, who could not be comfortable in church for one hour because it is too warm.

The divine command given our thousands of years ago, "Remember the Sabbath Day, to keep it holy," seems to be utterly forgotten by people of the present day.

## Nebo Notes.

Still dusty and very dry. Corn is suffering and unless it rains very soon a short crop may be expected.

The farmers are threshing wheat, and they report a good yield, and of the best quality. The hay crop is fine and is already saved. Peas are doing well as yet.

Politicians are in good shape but are rather quiet.

Croquet is gaining in Nebo. Mr. Robert Harris is to be commended for refusing the park to croquet parties on Sabbath. "Remember the Sabbath day, to keep it holy."

The protracted meeting held by Revs. Watson and McEuen at the C. P. Church, is well attended and a great deal of interest is being manifested.

Miss Mabel Young, of Providence, is the guest of friends near here.

## For Malaria, Chills and Fever

THE BEST PRESCRIPTION IS  
**Grove's Tasteless Chill Tonic.**

The formula is plainly printed on every bottle—hence you know just what you are taking when you take Grove's. Imitators do not advertise their formula knowing that you would not buy their medicine if you knew what it contained. Grove's contains Iron and Quinine put up in correct proportions and is a Tasteless form. The Iron acts as a tonic while the Quinine drives the malaria out of the system. Any reliable druggist will tell you that Grove's is the **Original** and that all other so-called Tasteless Chill Tonics are imitations. An analysis of other chill tonics shows that Grove's is superior to all others in every respect. You are not experimenting when you take Grove's—its superiority and excellence having long been established. Grove's is the only Chill Cure sold throughout the entire malarial sections of the United States. No Cure, No Pay. Price, 50c.
